

Dear Students and Parents:

Seventh grade social studies students and parents will have the option to join Celly. It is a private communication network that works with any mobile phone/device and email. Members can join instantly with a mobile device by sending one text message to **23559** and in the text message area enter **@harmon7ss**. Since some students or parents may opt to not join, new information will not be sent. Instead we will use it for reminders such as "Don't forget to study for the social studies assessment". The nice thing about Celly, it allows teachers to communicate with students and parents while keeping cell phone numbers private on both ends. In other words, cell numbers are never visible. Instead Celly assigns a random 4 digit number to members.

If a student or parent does not have a mobile phone with a text messaging plan or other device such as an IPOD touch that can receive text messages, you can still sign up to receive @harmon7ss alerts via email by going to <http://cel.ly/login>. Simply create an account by entering a username, password, and email. You will have to check your email to get a 4 digit code to verify your address, then once inside your account where it says Join Cell enter @harmon7ss. You will now receive reminders by email.

If your parent/guardian would like to keep informed please have them register by using the same directions. If you would like to read additional information regarding Celly, feel free to visit <http://cel.ly/help>

Please have your parent/guardian sign below to insure they have seen this handout.

Parent Signature

- ☐ Yes, it is ok for my child to join @harmon7ss by cell or email.
- ☐ No, my child will not join @harmon7ss at this time.
- ☐ As a parent/guardian, I will join @harmon7ss.

***7th grade social studies will only be using Celly to send alert reminders. We will not communicate any "new" information that can not already be found at our Wiki or H.W. Hotline.**
